Hiring Manager

American Express Enterprise Strategy

New York, NY

Dear Hiring Manager,

I am writing to express my interest in the Analyst position within the Enterprise Strategy division at American Express, as advertised. Currently a senior at the University of Colorado Boulder, majoring in Computer Science and graduating in December 2024, I am eager to leverage my analytical, problem-solving, and leadership skills to contribute to the growth and strategic goals of American Express.

Throughout my academic and professional journey, I have had the opportunity to develop key competencies that align with the demands of this role. My experience includes IT internships, project management, and leading the CU Night Ride Leadership Program. This experience has honed my ability to collaborate effectively, manage complex projects, and approach challenges with a solution-oriented mindset. Additionally, my work as a Back-End Developer and involvement in CU Robotics have instilled a deep commitment to continuous learning and improvement, qualities I believe are crucial in a fast-paced, dynamic environment such as Enterprise Strategy.

The opportunity to work on high-impact projects across different business units, directly supporting American Express' growth strategy, excites me. I am particularly drawn to the collaborative and mentorship-driven culture of the team, as well as the opportunity to contribute to projects that drive innovation and long-term success for the company. I am confident that my intellectual curiosity, strong work ethic, and passion for problem-solving will allow me to make a meaningful impact as an Analyst.

I would be honored to bring my skills, dedication, and enthusiasm to the Enterprise Strategy team, and I am excited about the opportunity to grow and contribute to American Express. Thank you for considering my application. For more information, you can check out my website at <https://ram096.github.io/ramy>. I look forward to the opportunity to further discuss how I can contribute to your team.

Sincerely,

Ramy Kassam
